[ACR+] Green public procurement

Green ProcA · Monday, August 1st, 2016

A new project has just started on green public procurement and urban sustainable furniture, the LIFE FUTURE project, which might be interesting for you.

LIFE FUTURE aims to promote green public procurement, focusing on the urban furniture sector. The project will allow to overcome the difficulties encountered by persons in charge of public procurement procedures when they have to include environmental clauses in call for tenders and assess the offers received, due to their limited knowledge on environmental matters. For that an online tool will be developed, the GUF Tool which will support public bodies on the decision making related to the purchase of more environmentally friendly urban furniture.

You can follow the updates of this project on the website www.life-future-project.eu.
