

Green ProcA

Welcome

Green ProcA provides information and assistance to public procurers in the implementation of Green Public Procurement (GPP) in seven European countries.

What Green ProcA offers to you

- Information on Green Procurement issues
- Free-of-cost consultations and trainings
- Assistance in the realization of green procurement lighthouse projects

Who can participate in Green ProcA?

- Green ProcA addresses public authorities in the countries Germany, Poland, Italy, Slovakia, Bulgaria, Romania, and Hungary
- Green ProcA especially supports towns and cities who are signatories of the Covenant of Mayors (CoM)
- Green ProcA helps the participating authorities to successfully apply green procurement in order to achieve their targets for reduction of CO₂ emissions

How can you participate?

- Get in contact with your national Green ProcA [helpdesk](#)
- Apply for a free-of-cost training on green public procurement (GPP) in your city or municipality
- Implement a GPP lighthouse project with support of our helpdesks

The project “Green Public Procurement in Action (ProcA)” is funded by the European Union’s program Intelligent Energy Europe (IEE).
