

Green ProcA

Purchasing guidelines

The guidelines “Procurement and Climate Protection” are meant for public and private procurement bodies and offer support in taking in ecological aspects in buying decisions.

As a general introduction to green procurement we recommend the “Buying Green! Handbook” of the European Commission.

This guideline explains how to incorporate green public procurement into Covenant of Mayors Sustainable Energy Action Plans:

- [Green Public Procurement in Sustainable Energy Action Plans](#)
- [Compra Verde en los Planes de Acción de la Energía Sostenible](#)
- [Nachhaltige öffentliche Beschaffung in Aktionsplänen für nachhaltige Energie](#)

These guidelines offer support in taking in ecological aspects in buying decisions:

- [Buildings and Building Components](#)
- [Lighting](#)
- [Office Equipment](#)
