### Application period

1 Nov 2015 - 31 Jan 2016

### Categories

Municipalities with

- up to 10,000 inhabitants
- 10,000 to 100,000 inhabitants
- more than 100,000 inhabitants

### Award criteria

50% weighting

- New CO<sub>2</sub> emissions as compared to emissions before the investment or as compared to emissions of a standard product (measurable result per year)
- CO<sub>2</sub> savings as compared to money spent (measurable result per year)

50% weighting

- **Transferability.** The central idea or approach should have the potential for replicability by others in the procurement or tendering field and stand as a learning opportunity.
- **Innovation.** A high degree of innovation, either operationally or in terms of policy, should be demonstrated factor as compared to the country's current standard.
- **Environmental Performance.** The engagement of the municipality or institution in terms of energy efficiency will be assessed.
- **Social responsibility.** Basic social criteria, as stated in "Buying Social - A Guide to Taking Account of Social Considerations in Public Procurement" by DG Employment, are taken into account.

### Applications

14 applications have been handed in for the German GPP Award with combined CO<sub>2</sub> emission savings of 402,215.97 t/year.
