Product/service groups

The members of the Bulgarian Association for Construction Insulation and Waterproofing (BACIW) at their regular General Assembly held on April 19th, 2006 approved and adopted Criteria of BACIW for Quality Mark Award.

If there is an accreditation under ISO 9001, or quality control system, the quality mark is awarded automatically. In case of absence of accreditation, the mark shall be awarded under the following criteria:

For manufacturers:

1. Observing all Bulgarian and European standards and regulations, related to the design and production of insulation products and qualified services provision to clients purchasing insulation products and systems.
2. References, deeds, etc. from forums held in the country and abroad.
3. Materials test protocol from an accredited laboratory and manufacturing supervision certificate.
4. Development of specific measures related to the requirements for labour safety and environmental protection.

For importers / businessmen:

1. Observing all Bulgarian and European standards and regulations concerning the certification of products and qualified services provision to clients purchasing insulation products and systems.
2. Formal authorization from the manufacturer that the legal person is his/her distributor.
3. Declaration for product compliance.
4. Certificate of training provided by the manufacturer.
5. Available procedures for considering claims.
6. Certificates for the insulation system.
7. Development of specific measures related to the requirements for labour safety and

environmental protection.

8. Possession of certification pursuant to the provisions of the Regulations for Essential Requirements and Assessment of Building Products Compliance.
