
Green ProcA

EU GPP Award

Welcome to the EU GPP Award

Unfortunately the application deadline for the EU GPP Award has now expired. The Green ProcA team is happy to have received many great submissions. Information about the winners is coming soon.

The award recognises procurement offices in Europe that have carried out outstanding GPP projects.

Winners will

- Receive a Green Public Procurement trophy
- Be featured in the media and on the Green ProcA Award website
- Get an invitation to the award ceremony. All travel costs are covered.

There are three categories, depending on the number of inhabitants in the participating municipality. Projects are judged based on following criteria: CO₂-savings, innovation, transferability, social responsibility, and the local authority's commitment to energy efficiency.

To enter the competition, simply complete the application form and send it to your Green ProcA team, which will be happy to answer any questions you may have. The application period for the EU GPP Award ends on **30 April 2016**.

After the closing date, all valid submissions will be judged by an independent jury, which will select three finalists in each of three categories. These finalists will be published on the Green ProcA Award website and the winners will be selected via online voting.

The winners will be announced in summer 2016.

[Application form \(docx\)](#)

We are happy to help you with filling out the application form or give you advise on

the calculation of CO₂-emissions.

Best of Luck!

Your Green ProcA Team
